

SENATOR MIKE DELPH

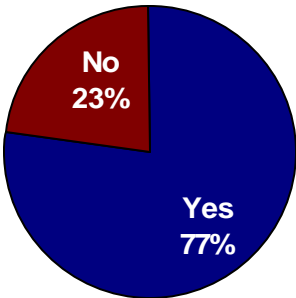

Serving District 29: Hamilton and Marion Counties

200 W. Washington Street · Indianapolis, Indiana 46204 · www.in.gov/S29

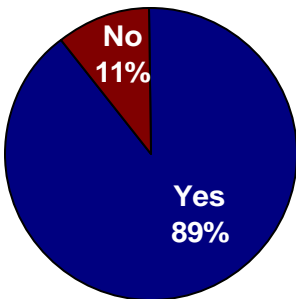

2006 LEGISLATIVE SURVEY RESULTS

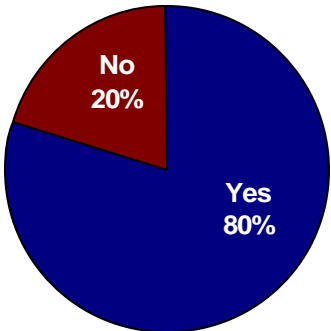

1. The courts have recently interpreted eminent domain law to allow the government to seize private property and give it to a private developer if the project will help economic development. Many, including myself, are very concerned that private property rights are now in jeopardy. Should we change Indiana's laws to stop private property from being taken for a non-public use, even if it helps economic development?

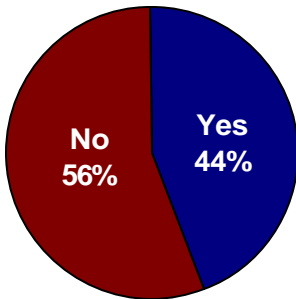

6. Do you support state education benefits for federal military reservists, similar to those benefits granted to members of the Indiana National Guard?

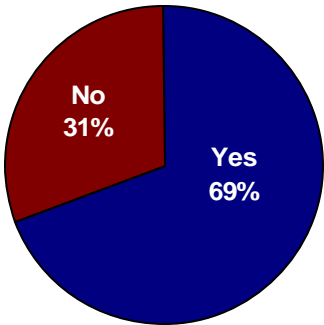

7. Current law requires all voters to present a photo ID at the polls. The state has agreed to provide a free ID card to those who do not already have one. Do you believe voters should provide proof of identification at the polling place?

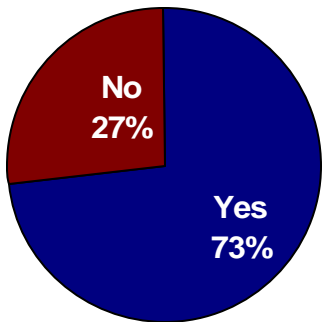

2. Should Indiana continue to offer a wide array of tax other incentives for new businesses to locate and create jobs here?

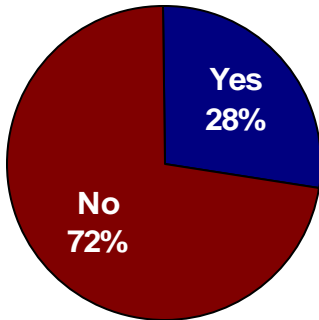

8. Do you feel that the state should stop regulating the electric utility industry so that consumers are allowed to choose their power company?

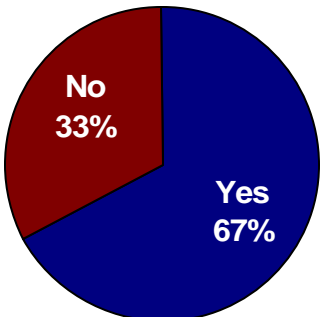

3. Should the state provide automatic tax incentives to companies that invest dollars in Indiana and/or create more jobs for Hoosiers?

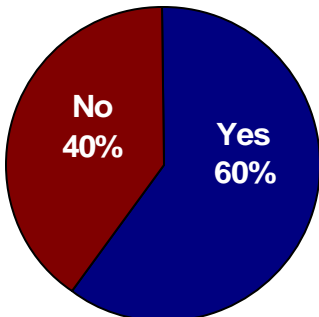

4. Should the state enact nutritional guidelines for food offered in school cafeterias and vending machines?

9. Do you favor further expansion of gambling in Indiana?

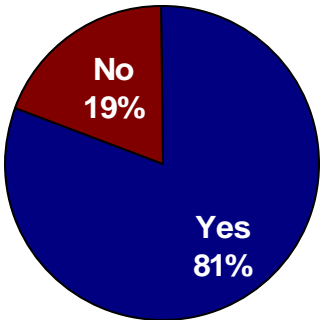

5. Should parents have more flexibility in how their property taxes are used to fund their children's education, whether it is through public, parochial or home schools?

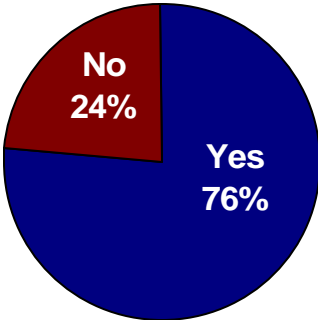

10. Is the state too dependent upon gambling revenue?

2006 LEGISLATIVE SURVEY

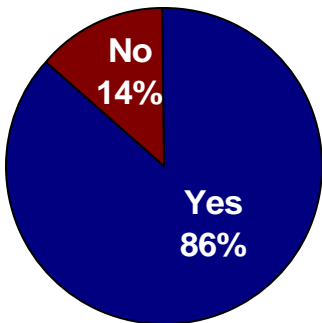

RESULTS CONTINUED

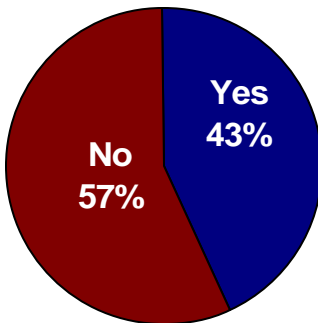

11. Do you support the second amendment to the United States Constitution, which gives citizens the right to bear arms?

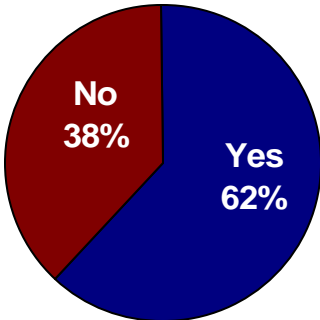

16. Religious leaders from various communities and backgrounds are invited to lead the daily invocation during session days at the Indiana General Assembly. Do you believe these leaders should be able to pray according to their faith, regardless of religion or denomination?

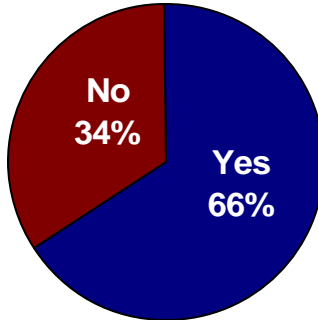

12. Should state law be changed to require abortion clinics to meet the same health standards as outpatient health care centers?

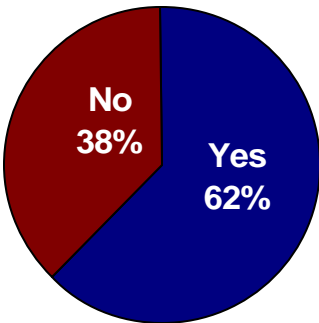

17. The total net property tax levy for local governments in 2004 was \$5.4 billion. Complete elimination of property tax levies would require extremely high rate increases on both sales and income taxes. Last session, the legislature considered an idea that would stop further increases in property tax bills and allow local governments to raise income taxes to supplement budgetary needs. Should local governments be given this authority?

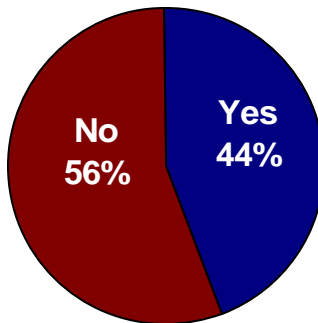

13. A legislative study committee of local government is considering moving township government responsibilities (poor relief, property assessment, and fire protection) into county operations as a way to reduce operating costs. Do you favor eliminating the township level of government?

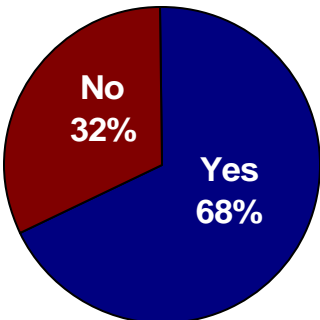

18. In order to complete the I-69 extension from Indianapolis to Evansville in a timely fashion, should the state fund the project by making the portion between Indianapolis and Evansville a toll road?

14. Do you favor the Indianapolis Works project proposed by Mayor Bart Peterson that, among other things, would consolidate township fire departments with the Indianapolis Fire Department?

19. Should the state lease the Indiana Toll Road to a private operator in order to generate a large, one-time cash infusion for the state?

15. Do you support a state constitutional amendment defining marriage as the union of one man and one woman?
